Inna Segal

**Book Description:**

This deck is visceral, emotional and raw, in both text and visuals, expressing both the lighter and the darker side of life. The cards access the higher states of awareness, as well as challenging emotions, thought patterns and energies people have to transform.

In this oracle deck, the text for each card gives the meaning of the card, the reason the person has chosen the card, and an empowering statement and a short process.

**About the Author:**

Inna Segal is a gifted healer and a pioneer in the field of energy medicine and human consciousness. She can psychically 'see' illness and blocks in a person's body by intuitive means, explain what is occurring, and guide people through self-healing processes.
